REQUEST FOR RECONSIDERATION
UNDER 37 C.F.R. §1.111**

Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the Office Action mailed February 14, 2001, please make the following amendments and consider the remarks that follow.

In the Claims

Please cancel claim 54 without prejudice or disclaimer of the subject matter contained therein.

Please amend claims 1 and 22 as follows: A marked up version showing the changes made is attached.

1. (Amended) A method for targeting a therapeutic agent to a target site in a patient, comprising the steps of:
- (a) administering to the patient an effective amount for targeting of at least one multispecific targeting protein comprising at least one first binding site which specifically binds to a substance produced by or associated with the target site and present at the target site and at least one second binding site which specifically binds to an epitope on an enzyme, wherein binding between the targeting protein and the enzyme does not interfere with enzyme activity;
